How Would You Feel If I Can Show You How To Make 1 Million Dollar Without You Having To Leave Your House?

I know that this might sound very far fetch for now but it is not really as hard as it seems. Everything in this world is more about your perception and your perspective. This is also known as how you see things in this amazing World. As humans we don't really see things as they are, we see things as we are and that's where most of our challenges arise from. Our mind isn't perfect; the best thing about this is that it does not need to be at all. You are perfect the way you are and all you need to do from now on is just accept yourself. Don't worry about your current situation, we are in duality and it will always balance with the opposite. So your current account balance don't matter, you can always make a lot more money; don't worry about your current weight, you can always lose all the excess.

Let me tell you a secret, are you sure you are ready for this? I know you are ready, you might even think you are not, but you defiantly are that's why this book came to you. The Universe is now calling you and thats why you are here. The secret is simple and it is amazing, all this is happening in your mind, and the key is in your hands. Only you have the key to your mind. Now how do you get that key? WOW that's the one million dollar question; in fact it is worth a lot more than a million. It is priceless. Your mind cannot be bought with paper money, because it is the gateway to your Heaven. Can you put a price on Heaven? NO! You cannot. Therefore you have to be always careful what you want to put in your mind. Have you ever heard the words "You Reap What You Sow"? You should have and if you haven't there it is for you.

*If you plant an orange seed, it will not grow a banana tree. It is that simple. Let me tell you brothers and sisters, you are the gate keeper to your mind and you have to be careful in this world filled with landmines, you have to be extra ordinary careful because having a landmine in your mind will not grow a very rewarding fruit. It will only explode once you trigger it. Therefore the first thing you have to do is disable all landmines in your mind. Don't worry it is not as hard as it sounds, that I promise you. I have been where you are right now and you can only get to the next level if you disable those landmines you have set in your mind. Be careful not to trigger them. First thing to do is you will want to have a goal. Write down what you would love to change in your life right now, then visualise that change has if it has already happened. Hold this thought for 15 seconds if you can. You Can Do This. [*Just Focus On It.*](#) Smile...*

Well done! Congratulation you are already in your lane. If you can't achieve this, don't continue reading. Please complete the first step before going further. This is because your mind might be currently unstable right now and you must have full control to get it to the next level. If you have done it, you are safe for now, Opps! Now do it again. This time around feel it in your heart, and see it all as if it is happening right now. Hold this thought for just 15 seconds. If you can do this you are now in control of your mind. Always do this daily and don't miss it. At the end of this eBook, I will include a link to another eBook which is free and this new eBook will help you clear your mind totally, and clear almost all your landmines.

Now that you have less resistance, let's go straight the point. As I said earlier it is all in your mind and you have just made your mind a lot richer. You will now need to focus, on the goal you have written down, and break it down into sub goals. Make sure you write it down because you will achieve your goals quicker once you see it written down in your handwriting. You are truly powerful and you will see the results of this real soon. Your goal could be for example making a million dollars or pounds.

Perhaps something like this...

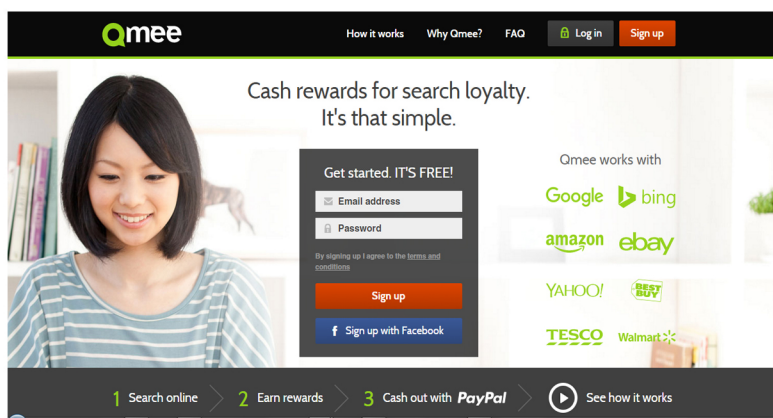

Main Aim - Build a self-sustainable business

Drawing and Painting.*
 - 2) Draw and Paint Five Images a Day*
 - 3) Create Social Media Pages for Your Businesses
